

title	Undergraduate Research Symposium and Journal
name	Sema Alptekin
phone	6-7029
email	salpteki@calpoly.edu
additional	Kathy Chen
department	Honors + IME + MATE
proj_desc	The Honors Program would like to initiate an annual Undergraduate Research Symposium beginning Spring of 2008. This would allow motivated Cal Poly students currently interested in or participating in research to submit a proposal and present their project. A natural follow-up activity is to publish select papers in an Undergraduate Research Journal. Support is requested to organize and offer the proposed research symposium in Spring'08; and to initiate Cal Poly's Undergraduate Research Journal in Summer'08 to showcase our students' research accomplishments.
inter_desc	This one-day Undergraduate Research Symposium would facilitate student and faculty understanding in current research projects, and spur collaboration of future research ideas. Multidisciplinary and team projects will be given priority. Approximately 40 students representing all majors will have an opportunity to participate.
